The development of World civilizations from the ancient world through the 17th century. Particular emphasis is placed upon world history in global perspective, the development of agriculture, and major trends in the political, military and cultural histories of world civilizations.

Prerequisite: Eng. 101

Corequisite, or Parallel:

General Education Competencies Satisfied:

Discipline-Specific Attribute Code(s):

HCC General Education Requirement Designated Competency Attribute Code(s):			
□ AESX	Appreciation of the Aesthetic Dimensions of Humankind		
\square QUAX	Quantitative Reasoning		
\square SCKX	Scientific Knowledge & Understanding		
\square SOCX	Social Phenomena Knowledge & Understanding I		
	(within the fields of anthropology, psychology or sociology)		
\square SOPX	Social Phenomena Knowledge & Understanding II		
	(not within the fields of anthropology, psychology or sociology)		
\square WRCX	Written Communication in English I		
□ WRIX	Written Communication in English II		
Additional CSCU General Education Requirements for CSCU Transfer Degree Programs:			
\square ORAX	Oral Communication in English		
⊠ HISX	Historical Knowledge & Understanding		
□ SCRX	Scientific Reasoning		
Embedded Competency(ies):			
CRIX	Critical Analysis & Logical Thinking (Outcomes □ 1 □ 2 □ 3 □ 4 □ 5)		
CONX	Continuing Learning & Information Literacy (Outcomes □ 1 □ 2 □ 3 □ 4)		
ED	Appreciation of the Ethical Dimensions of Humankind (Outcomes \Box 1 \Box 2 \Box 3 \Box 4)		
WCIII	Written Communication in English III (Outcomes □ 1 □ 2 □ 3 □ 4 □ 5)		

Ц.	BHEL	Behavioral Science elective	
	BUS	Business elective	
	C	Computer Literacy (satisfies requirement)	
	COMP	Computer Science Elective	
	FINA	Fine Arts elective	
	HUM	Humanities elective	
	MATH	Mathematics elective	
	SCI	Science elective	
	SSCI	Social Science elective	
Course objectives:			
General E	ducation Goals and	Outcomes:	
meanings, at visual arts, a visual arts, a Quantita encounter in problems an Scientific methodologic understanding scientific issemble Social Plante influence systems of in means. Written lengths and state of the influence of	and functions of creative and related forms of expander Reasoning: Student various aspects of their damake informed decises through the state of the	ents will learn to recognize, understand, and use the quantitative elements they in lives. Students will develop a habit of mind that uses quantitative skills to solve ions. rstanding: Students will gain a broad base of scientific knowledge and ses. This will enable them to develop scientific literacy, the knowledge and se and processes essential for personal decision making and understanding e. & Understanding I and II: Students will develop an increased understanding of a group's attitudes, beliefs, emotions, symbols, and actions, and how these maintained, and altered by individual, familial, group, situational, or cultural anglish I and II: Students will be prepared to develop written texts of varying the effectively and appropriately across a variety of settings.	
		erstanding (for CSCU Transfer Degree Programs): Students will study the	
		of human experience from multiple historical perspectives. sh (for CSCU Transfer Degree Programs): Students will be prepared to develop	
	9	nd styles that communicate effectively and appropriately across a variety of	
	Reasoning (for CSC)	U Transfer Degree Programs): Students will become familiar with science as a	
method of ir informed de		evelop a habit of mind that uses quantitative skills to solve problems and make	
evidence and problems an 1. dist	d ideas within and acro d make decisions based Demonstrate competen tinguishing facts from o	ogical Thinking: Students will be able to organize, interpret, and evaluate ss disciplines; draw reasoned inferences and defensible conclusions; and solve d on analytical processes. the in argumentation by identifying issues, evidence and reasoning processes; opinion; recognizing various types of arguments. the informulating arguments by formulating good arguments, including a tive reasoning.	

- 3. Demonstrate competence in analysis by breaking subject matter into components and identifying their interrelations to ascertain the defining features of the work and their contributions to the whole.
- 4. Demonstrate competence in evaluation by identifying assumptions, assessing the quality and reliability of sources of evidence, and demonstrating knowledge of the criteria for evaluating the success of each kind of inference.
- 5. Demonstrate competence in synthesis, drawing together disparate claims into a coherent whole in order to arrive at well-reasoned and well-supported inferences that can be justified as a conclusion

Embedded Continuing Learning & Information Literacy: Students will be able to use traditional and digital technology to access, evaluate, and apply information to the needs or questions confronting them throughout their academic, professional, and personal lives.

- 1. Demonstrate competency in using current, relevant technologies to solve problems, complete projects, and make informed decisions.
- 2. Access, navigate, identify and evaluate information that is appropriate for their need(s) and audience(s).
- 3.

 Synthesize information to broaden the knowledge base and produce both independent and collaborative work.
- 4. ☐ Evaluate the economic, legal, ethical, and social issues surrounding the access and use of information and relevant technologies.

Embedded Appreciation of the Ethical Dimensions of Humankind: Students will identify ethical principles that guide individual and collective actions and apply those principles to the analysis of contemporary social and political problems.

- 1. ☐ Respond critically to ethical issues.
- 2.

 Apply appropriate concepts and terminology in identifying ethical problems, proposing and defending solutions to them.
